

## EuroSpaceHub Closing Conference

EuroSpaceHub facilitates and increases space innovation and technology transfer by connecting space academia, industry and start-ups. It is a Digital Platform for the Space and Aviation Ecosystem that aims to connect digitally the space ecosystem in Europe, from tech transfer offices to industry, space accelerator networks, research centres, and other universities.

**When:** 9.30 am (CET), June 5, 2024 (Wednesday)

**Where:** Rue Belliard 41-43, 1040 Brussels, Belgium

**Register here:** <https://forms.gle/LXatqBbZWfxYRmwb8>

**Zoom Link:** <https://litedm.zoom.us/j/98925917270>

### Agenda

09.30-10.00 || Registration

10.00-10.15 || *Opening & Welcome* | Vilma Puriene, EuroSpaceHub project leader

10.15-10.30 || *Welcome word* | Tadas Tumenas, LINO Head of LINO Office

10.30-10.40 || *Presentation on positive effects of EuroSpaceHub project results* | Vilma Puriene, EuroSpaceHub project leader

followed by a separate presentation of each main output of the EuroSpaceHub project

10.40-11.00 || *An outline of the proposed 5-month Executive hybrid program and explanation of the Training Workbook* | Prof. Walter Peeters, Representative of International Space University, France

11.00-12.00 || *Best practices and challenges of EuroSpaceHub as a Digital Platform for hybrid coordination of space innovation ecosystems back-to-back with the Panel discussion on onboarding of the Space innovation Ecosystem* |

*Moderator:* Ms Jara Pascual, representative of Collabwith Group, NL

*Panellists:*

Abdulkadir Nuhu Aminu, Director of Kanospacehub, Nigeria

Omar Beidas, Head of Innovation Govern Illes Balears, Spain

Arnolds Ubelis, Director NXP-Fotonika-LV, Latvia University, LV

Gancho Kolaksazov, representative of Space Cluster, BL

12.00-12.20 || Coffee Break

12.20-12.35 || *Cubesats as a collaborative tool to integrate all the space communities: from high schools to big companies* | Prof. Ana Ines Gomez de Castro, representative of Universidad Complutense de Madrid, Spain

12.35-13.35 || **Panel discussion:** *Knowledge Valorisation to Unlock the Potential of New Space Innovation and Technologies within the Climate Change Mission*

**Moderator:** Mr Tadas Tumenas (Head of LINO Office)

**Panellists:**

Prof. Ana Ines Gomez de Castro (Universidad Complutense de Madrid)

Prof. Bernard Foing (start-up “LUNEX”, Leiden University)

Marc Crampe, start-up founder & representative of ESA BIC

Mr Ignas Simanavičius, Attaché for Economic Affairs, Permanent Representation of Lithuania to the EU

prof. Walter Peeters, International Space University, Head of Space Incubator within the University

13.35-13.55 || **Keynote speech** “How is “New Space” shaping the traditional space sector, and how can SMEs leverage it to increasing space competitiveness and sustainability?” | *Guillaume de La Brosse*, Head of Unit, Innovation and New Space – Space Defense, European Commission (DEFIS B.2)

13.55-14.20|| *Presentation of EuroSpaceHub Academy activities* | Prof. Bernard Foing, representative of LUNEX, Netherlands supported by @Fateme and @Marc Crampe from LUNEX @SBIC

14.20-14.30 || Closing remarks | Vilma Puriene, EuroSpaceHub project leader

14.30-16.00 || Lunch

### **Meeting location:**

Embassy of Lithuania, Brussels Rue Belliard 41-43, 1040 Brussels, Belgium

Map: <https://goo.gl/maps/5H2owJ7wq3dq2Yb9A>

**ATT:** *For security reasons (as the conference will be held at the Permanent Representation of Lithuania to the European Union), you are required to register for the conference and carry your ID card or passport).*
